

## Unlock the power of our 5G network.

Our 5G standalone network unlocks the potential to deliver the performance that public safety and critical infrastructure organizations need.

T-Priority is built on the Best Mobile Network in America, offering the **nation's first 5G network slice for first responders**. Only T-Mobile can automatically dedicate the highest priority across every band on our 5G Standalone network, up to nearly all of the available data capacity in rare events of extreme congestion.

# AGENCIES MOVE FORWARD WITH T-MOBILE.

Our nationwide 5G network is designed to support data-heavy applications and future technology, giving your agency the edge needed to stay ahead.

## Our commitment to first responders.

At T-Mobile, we understand the critical demands placed on public safety agencies. T-Priority helps ensure your calls, texts, and data take precedence during moments of high network congestion, delivering the connectivity you need. Whether you're on the front lines of an emergency or coordinating day-to-day tasks, our technology helps ensure that your communications are uninterrupted and prioritized.

We offer outcome-driven solutions designed to enhance the efficiency and effectiveness of public safety operations. From deployment to onboarding and ongoing care, T-Mobile provides dedicated support at every stage. Our team of public safety experts works closely with agencies to customize solutions that meet your mission objectives, delivering exceptional value and continuous support throughout the lifecycle of your operations.

**T T-MOBILE FOR GOVERNMENT**

For qualifying emergency response organizations on eligible rate plans. WPS enrollment with USDHS required for enhanced network functionality (including priority access, preemption, basic performance baseline, and T-Priority Slice features). Features available on our network; not available while roaming. T-Priority Slice features (data prioritization and enhanced downlink baseline) available in areas of Ultra Capacity 5G coverage with capable device and 5G Standalone settings; see [T-Mobile.com/5GLayers](https://T-Mobile.com/5GLayers). Baseline commits available network resources to help maintain threshold throughput; does not guarantee threshold speeds in all network conditions. T-Mobile, the T logo, Magenta & the magenta color are registered trademarks of Deutsche Telekom AG. © 2025 T-Mobile USA, Inc. 235478p

# BUILT FOR TOMORROW'S EMERGENCIES. READY TODAY.

First responders deserve the ultimate in network performance. T-Priority delivers America's best 5G experience for public safety professionals.

**T T-MOBILE FOR GOVERNMENT**

FIRST RESPONDERS  
RELY ON SEAMLESS  
CONNECTIVITY.

# T-PRIORITY DELIVERS WHEN IT COUNTS.

In an environment where every second counts, maintaining reliable communication is essential for rapid response. While voice calls are integral, data-intensive communication tools have become equally vital for first responders, enabling them to perform their duties effectively.

Don't let outdated infrastructure, network congestion, and insufficient data speeds hinder your agency's ability to act swiftly and effectively.

Whether managing critical tasks or large-scale emergencies, T-Priority helps ensure that your communications are prioritized, even during high-traffic periods—so you stay connected when it's needed most.

## First responders are first in line on T-Mobile with T-Priority.

T-Priority delivers:

- **America's best 5G experience for first responders** on the only nationwide 5G Standalone network.
- **The most 5G capacity** for critical communications.
- **Faster speeds** and the ultimate priority on the nation's fastest 5G network.
- **Better coverage**, reaching more people and more places than other providers.
- **Enhanced network security**, built into every layer of our network to help keep first responders connected whenever duty calls.

## The gold standard for public safety.

A network that supports **up to 40% more 5G capacity** for first responders than other providers.

A performance baseline **2x faster** than we've given first responders before.

The nation's largest 5G network, covering **98% of Americans** across more than 2 million square miles.

Access to a **security slice** from T-Mobile SASE that helps defend against cyberthreats.

And now, access to the world's largest satellite constellation, **T-Satellite—delivering voice and data on select applications anywhere you can see the sky.\***

\* T-Satellite is an add-on service to T-Priority. Satellite communications are limited to SMS only and are not prioritized for first responders. Texting & select satellite-ready apps with compatible device in most outdoor areas in the U.S. where you can see the sky. Satellite service, including text to 911, may be delayed, limited, or unavailable.
